

Academic Progress and Recovery Report

Giovanni G. | Grade 6 | iQ Academy California - Los Angeles (iQLA) Prepared
from uploaded spreadsheet course data dated April 14, 2026.

Summary Box

Giovanni is currently passing all six uploaded courses. Career Exploration, Language Arts, World History, Physical Education, and Science are in a passing range, while Math currently falls in Recommended Grade Improvement based on the uploaded spreadsheet snapshot.

The clearest high-priority needs are low and zero-score quizzes and test items in Math and Science. Due dates were not included in the spreadsheet export, so the report treats the visible scores as the main basis for improvement planning rather than as proof of deadline status.

Most computer-graded assignments may generally still be completed through June 5, while teacher-graded work such as Part 2 tests, labs, writing assignments, and discussions should be prioritized by June 3, so there is time for grading.
